

ADITYA SHARMA

Data Analyst

☎ +91-9098053963 ✉ adityasharma22093@gmail.com 🔗 linkedin.com/in/adityasharma

Summary

Data Analyst with a strong foundation in SQL, Python, Excel, and Power BI. Skilled in cleaning, analyzing, and visualizing data to generate insights and support data-driven decision-making. Interested in collaborating on meaningful analytical work in fast-paced environments.

Skills

Programming & Querying: SQL, Python, C, Java, HTML, CSS

Data Visualization: Advanced MS Excel, Power BI, Tableau, Python Libraries (Matplotlib, Seaborn)

Analytical Abilities: Data Cleaning, Exploratory Data Analysis (EDA), Insight Generation, AI & Machine Learning

Experience

Data Science Intern

July 2024 – September 2024

LearnNex (Powered by Wipro DICE ID) – Remote

Tools: Python, Matplotlib, Seaborn, Scikit-learn, Google Colab

- Performed data cleaning and preprocessing on large real-world datasets.
- Conducted Exploratory Data Analysis (EDA) to identify trends and correlations.
- Built and evaluated ML models for classification and regression using Scikit-learn.
- Visualized insights with Matplotlib and Seaborn for clear decision-making.

Data Analysis Intern

June 2025 – July 2025

Samatrix Consulting Pvt. Ltd. (Onsite)

Gurgaon, India

- Completed a 4-week summer internship focused on real-world data analysis.
- Cleaned and processed datasets to extract actionable business insights.
- Applied statistical techniques to interpret trends in structured data.
- Collaborated with team members to contribute analytical findings.

Projects

Plant Disease Detection using Machine Learning

Jan 2025 – Mar 2025

Academic

Tools: Python, OpenCV, TensorFlow, Keras, Matplotlib

- Developed a CNN-based system to classify healthy/diseased plant leaves.
- Preprocessed and augmented image datasets using OpenCV and NumPy.
- Tuned hyperparameters to achieve high classification accuracy.
- Visualized performance via confusion matrix and accuracy/loss curves.

Sales Dashboard for Regional Performance | SQL, Power BI

February 2025 – March 2025

- Queried and joined 3 sales tables (25k+ rows, 12 months, 5 regions) using optimized SQL.
- Built 10 dynamic measures and KPIs in Power BI for regional sales and return trends.
- Designed interactive dashboards with slicers and filters by region, category, and time.
- Identified a 14% sales drop post-festival in the South region, driving a marketing recovery plan.

Awards & Certifications

- **LearnNex Data Science Certification (2024):** Industry-oriented program (powered by Wipro DICE ID) covering data preprocessing, visualization, and ML.
- **Samatrix Data Analytics Certificate (2025):** Completed 4 practical case studies using SQL, data cleaning, and dashboards.
- **Best Final Year Project (2025) - SAGE UNIVERSITY, BHOPAL:** Built a Power BI dashboard analyzing academic performance across 8 departments over 4 years.

Education

B.Tech in Data Science

Graduated: 2026

SAGE UNIVERSITY, BHOPAL, MADHYA PRADESH

CGPA: 7.9 / 10
